## Audio Visual Requirements

### Equipment

In an effort to have your event run as smoothly as possible, please arrange to have the following items for Rick's presentation:

- **A Lavalier Microphone.** UHF Broadcast Quality. Rick prefers a wireless lavalier, and it is not mandatory. Please plan to have backup lavalier batteries on hand.
- **Two (2) Hand-held Wireless Microphones.** Based on need. Rick's presentations are interactive, and if the group or room is large, hand-held microphones work well for participants to use.
- **LCD Digital Projector and Screen.** Should be able to project an image of 1024 x 768 resolution. Please provide UGA cable to projector.
- **House Sound System with stereo mini-jack cable** to provide audio directly from Rick's laptop computer.
- **Easel/Flipchart and Markers.**
- **Small Table with Water.** (Rick does not use a lectern.)
- **Bar Stool for Rick to sit on.**

In addition to the above, a sound and equipment check is requested prior to the event. Thank you!

### Recording Devices

If you are interested in recording Rick's presentation in either a video or audio format, please contact us prior to his arrival to discuss your needs and desires.

If you have any questions or concerns, please feel free to contact Chuck Lioi at [info@itsallmadeup.com](mailto:info@itsallmadeup.com) or phone 818 990 2960.
